HOAGLAND'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER

HAS PURCHASED THE RIGHT FOR THIS County of the above Patent and will hereafter use it in the construction of all the Vehicles manufactured at his extensive

Carriage Factory,
Corner of Second and Morrison Streets.

He respectfully refers to the following
CARD.

Having examined the New Patent Shaft Coupling, invented by H. R. Hoagland, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used

It fastens without bolt or screw, and is therefore easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant and is convenient safe and secure

It is easy to change to this style of coupling any buggy or other vehicle now in use and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent heretofore considered the best in use

EASTERN DATES TO MARCH 17

Congressional

WASHINGTON, March 16.—In the Senate Mr Ross had read statements published in papers this morning, intimating that certain ... made in connection with the sale of certain Indian lands of which he had charge had been garbled in their publication. In consequence of material omissions he examined the documents. They were prepared under his direction but he explained the omissions as ... would have made unnecessary expense in printing and they were made to facilitate an intelligent presentation of the case

Wilson presented a memorial from colored residents of the Choctaw and Chickasaw country, complaining of the recent treaty as a violation of their rights in certain respects. Referred to the Committee on Indian Affairs

Washington News in General

WASHINGTON, March 16. The resignation of Col Daniel Butterfield as Brevet Major General, is accepted by the President, to take effect March 14, 1870

A general army order has been issued, carrying into effect the resolution of Congress providing for meteorological observations at stations in the interior, to give notice of the approach of storms

The reply of the President to the applications from Tennessee and Georgia for military assistance to suppress alleged disturbances of the peace is that he has no doubt of his right to accede to their request, but he has doubts whether they could be used to aid the civil authorities. He will take legal advice as to all such cases before issuing an order

The Senate Committee on Territories have decided to recommend the nomination of Potts for Governor of Montana. If it was tabled the effect would be the retention of Governor Ashley

The rumor that the House Foreign Committee has agreed to report in favor of according belligerent rights to Cuba is untrue. The committee has not had a meeting this week

The Senate confirmed the nomination of Sickles as Minister to Spain by a vote of 45 to 34

New York News.

NEW YORK, March 16.—Pacific Railway securities are higher. Union Pacific first mortgage bonds, 86½ and 85⅝, income bonds 85 and 85½ Central Pacific 94 and 94½

The funeral services of the late Robert D. Holmes, Past Grand Master of the Masons of the State of New York, took place this afternoon and were very impressive. It was the largest Masonic procession ever seen here on a similar occasion, being over two miles long

The North German Lloyds will hereafter dispatch two steamers weekly for Europe, Thursday and Saturday, carrying the mails

A heavy rain and wind storm this morning, caused much damage on Long Island. The railroad track and bridge were washed away.

The Associated Press have directed their agent at London to offer five hundred dollars reward for the detection and punishment of the author of the *City of Boston* hoax

The Fullerton case was concluded to-day, and the jury acquitted Fullerton under and by instructions of the Court, Judges Blatchford and Woodruff having both agreed that the evidence showed that Fullerton had done nothing inconsistent with integrity of purpose and purity of motive

NEW YORK, March 17.—The schooner *James H Hoyt* was wrecked at Sandy Hook. All hands were lost. After climbing into the rigging they were washed away

To day will be celebrated with the usual fervency by the Irish population

Cuban Affairs.

The Finance Committee of the Cuban League, yesterday resolved that the League will not solicit pecuniary aid from persons not members of the organization.

The *Times'* Havana correspondent says the correspondence of General Raloff has been captured near Villa Clara. The documents contain a great deal of interesting information about the insurrection, proving beyond a doubt that Candana has gone to Camagay to assume the chief generalship of the Cubans; also, that arms, ammunition and clothing are very scarce. The most important items contained therein are letters from Hortadodel, Valle and General Salume to Hernandez and Raloff, announcing that they have formed independent clubs for opposition to annexation. It appears they are to oppose annexation to the United States under any circumstances

Suit of the English Erie R. R. Stockholders

The report of the resignation of Burt, agent of the English Erie stock holders, is pronounced untrue. The *Tribune* says he has no idea of giving up the work he has undertaken. There seems to have been no failure in serving the necessary papers upon Gould and Fisk, and the English share holders may depend upon Burt's energy and persistency in the prosecution of the matter to the latest effort to protect their interest

Heavy Snow Storms—Roads Blockaded

ROCHESTER, March 16.—A severe storm is raging. The snow is two feet deep on a level and all the trains on the New York Central Railroad are blocked. None have arrived here since early this morning. The passengers are reported to be without provisions and suffering. The train on the Erie Railroad, which left here this morning is in a snow bank a mile and a half from the city, and the passengers are trying to make their way back on foot. A few of the most courageous have arrived. The roofs of several buildings have been crushed by the weight of the snow

TORONTO, March 16.—The violent snow storm extends throughout Western Canada. Trains east and west are behind time and none have arrived or left on the northern roads since last evening

Foreign Diplomats on American Affairs

A correspondence gives the speeches made by some of the first diplomatists in the world at the Washington's birthday banquet ... at Vienna. Baron Beust while he perfectly appreciated the difficulties in the way of Austrian progress said "I trust the unity of the Great Republic across the ocean, unity and freedom, will always be the same with ours—unity first as the only element of strength and freedom last as the great principle of progress." It is noteworthy that at the banquet embassadors of all the ... Powers of Europe united in compliments to America

Chicago News

CHICAGO, March 17.—By a collision of sleighs on Wabash avenue, last evening Chas. Sellinger a gentleman driving one of them was fatally injured and died shortly after

The Committee of Investigation in the Board of Supervisors in the case of Kearney, President of the Board charged with bribery and corruption, submitted their report yesterday, finding the accused guilty and requesting him to resign the position both as President and a member of the Board, both of which Kearney has declined to do. The matter will come up for further action to-day.

The Government has caused search to be instituted in Belgium for the author of the anonymous letter threatening the life of Gladstone

A dispatch just received from Queenstown says news has just come from all points on the south coast of Ireland, but there are no tidings of the missing steamer *City of Boston*. Heavy winds prevailed to day and continue to night

LONDON, March 17.—In the House of Commons last night, Latham moved a motion relative to the ballot bill. He said it was the only remedy for a great evil and especially in cases where it was indispensable for the protection of voters against landlords and priests.

The Marquis of Huntington deprecated debate on the bill before the House has heard the report of the committee which included the ballot among its recommendations.

Osburn spoke eloquently in favor of the ballot. He provoked mirth by giving an account of his last experience as a candidate for Waterford, his hairbreadth escapes, etc. The dark ages still continued in some parts of Ireland and there was no freedom or security at elections. Every one went armed to the polls. They were torn from their beds and compelled to vote and returned home to see their homes burned down by the opposition party

The Marquis of Huntington said he had more than he could manage in the telegraph and letter box and he felt inclined to let the ballot box alone but he found that reform demanded the ballot, the abolition of formal canvassing and nominations and that incentive to riot moted by a formal declaration of the poll. After remarks from Torrens Grey and Northcote the House divided on a motion to adjourn the debate, which was defeated by ten majority. It was then agreed that the House go into committee on the bill on the 3d day of May

PARIS, March 16.—It is again reported that the Pope is very ill and weak

A meeting was held last night in the American Chapel, in honor of Anson Burlingame. It was largely attended by Americans, residents and visitors. Some distinguished Frenchmen were also present. Minister Washburne presided and made a speech, paying a tribute to the political and social qualities of Burlingame. Ex Governor Bullock and others made speeches and appropriate resolutions were adopted

A fete was given at the Tuileries to day on the occasion of the 14th anniversary of the Prince Imperial. The *Journal Official* does not contain the decree of amnesty expected to mark the day. A manifesto of Imperial policy was also looked for but it has not appeared

The report that Austria endorses the demand of France on the Vatican, rests, it is said, on trustworthy authority

MADRID, March 16. A fierce controversy is in progress here on the best method of disposing of the Cuban question. Some journals are bold to argue in favor of abandoning the Island to the the United States. This proposition is bitterly opposed by a majority of the press as cowardly and unpatriotic. In the Cortes yesterday Gen. Prim, in answer to an inquiry as to the circumstances of the attack on him in the street, said the mob surrounded him, shouting "down with conscription." They threw stones at him. He declared that in future the Government will deal summarily with such disorder

The funeral of Prince Henri De Bourbon was conducted by the Free Masons. When the remains were brought to the church the officiating priest, seeing Masonic emblems on the coffin, withdrew the insignia of the church, and refused to perform religious ceremonies. Troops took part in the procession which followed the remains to the grave

ST PETERSBURG, March 16.—Ice in the Baltic is breaking up, and navigation will soon be completely reopened

EDINBURGH, March 17. The Court of Sessions lays a perpetual injunction on the sale of the American edition of Tennyson's poems in England

The War on the Public Schools

The war on the Public Schools in New York, of which the appropriation of over half a million dollars to sectarian schools in New York City is a part, appears to be attracting much attention in that State, and calling forth strong opposition. Remonstrances are pouring into the State Legislature against the policy of appropriation of public money to sectarian schools, and a strong demand is being made for the repeal of the law under which the appropriation is made. The New York *Times* after giving the history of the measure which was smuggled through the last Legislature says

It must be understood that this is only the climax of a series of measures to rob the public schools and endow private ones. For years there have been deftly introduced, on philanthropic pretenses items in the tax levy for the support of sectarian charities which turned out to be mainly schemes of anti-common school education, but last year the mask was thrown off and open war declared.

In the twelvemonth just closed there was diverted to sectarian purposes a total of $528,712. This sum was divided among churches, schools, asylums and other institutions specially devoted to the Roman Catholic, Protestant Episcopal, Hebrew, Dutch Reformed, Presbyterian, Methodist Episcopal, Baptist and German Evangelical Churches. How the money was distributed is the main point. Had Baptists secured the largest sum and Catholics the smallest, the principle would have been equally vicious. No public money should be given to private schools, and above all to sectarian schools. We have thus far had no union of Church and State; let us not commit the worse folly of uniting State and sects!

The cunning phrase of the tax levy spoke of "children *not provided for* in the common schools," as if this great number of sectarian schools was designed to fill out a deficiency in this respect. But no such deficiency existed then, and none such exist now. On the contrary, the Board of Education reports that the average number of vacant seats in the common schools is 10,000, and our schools as the Union League well says furnish gratis to the children of the city without distinction of sect everything that sectarian schools furnish except sectarian religious instruction. The question comes up whether the people shall be taxed to furnish the latter item, whether the sects shall not pay for it their selves

We see it stated that Messrs. Harper have sued Charles A. Dana of the *Sun* for the cost of publishing his portrait and biography in their illustrated weekly. We were not aware that the portraits and biographies of eminent living Americans ... published in that excellent journal ... were also ... This satisfactorily accounts for the milk in the cocoanut. The ... Sound papers represent that the saw mills on the Sound continue to send enormous cargoes of lumber, spars, laths, piles, shingles, etc., to all the principal ports on the Pacific coast, to the Sandwich Islands, China, Australia, Europe, and all the great lumber marts of the world. Every mill on those waters which has been conducted properly, has been a source of great wealth to its owners

The Gold Market

Ther seems no longer to be a probability of y considerable or permanent advance in ld Many have been supposing that the ecline below 125 or at all events below 120 as ephemeral, and that the upward tendency legal tenders could not long be sustained reaction has been constantly looked for nd sometimes there have been indications of , but these indications have been feeble nd have resulted in nothing except to show hat the gold decline is a permanent fact nd that an advance unless a merely small one, can hardly be expected again This state of things is largely owing to the pacification of the country and the systematic comprehensive retrenchment of the present Administration The steadiness which this policy has given to finances has settled the questions of national solvency and national credit, and the result is seen in the advance of all our securities, both interest-bearing bonds and legal tender currency

It is now well demonstrated, as the Chicago *Republican* observes, that the diminution of the premium on gold is not at all the result of hoarding operations, but the natural consequence of surrounding circumstances Nobody now doubts the solvency of the United States Nobody now expects the credit of the American people to be complicated by a foreign war, calling for new loans and expenditures. Nobody thinks the Union has any intention to violate either the letter or spirit of its financial contracts. On the contrary, we have accomplished a fiscal feat never before achieved by any modern nation—the largely progressive diminution of the public debt, within a few years after the termination of a vast internal war destructive of property and life, in a most signal manner. We have done more than England, or any European country has been able to do, in its whole history. Then, why should not our paper currency and our national bonds, so soon as this fact becomes indisputably apparent, rush toward par, and even rise above that point, considering our higher rates of interest, in comparison with foreign indebtedness? We earnestly believe that it will not be two years before our national securities will command, in the markets of the world, higher quotations than any of trans-Atlantic origin Moreover, we think we are very rapidly traveling the road to a resumption of specie payments. Coin may rally, spasmodically, from 12½ premium to a higher rate, but the course, though devious, is really downward, just as a stream that meanders, in occasional bends, moves apparently against its ultimate direction, yet proceeds steadily onward to its final estuary into gulf or ocean.

Fluctuations must of course accompany this change of relative values, and fortunes must be gained and lost in making the transit to par between gold and paper; but the ultimate gain will be great, compensating for all that went before. Congress need not concern itself with legislation looking to a return to specie payments; time, natural laws and commercial necessities will soon enough work out a solution of the problem.

New York Democracy.

The New York *Herald* in a long article depicts the woful condition of the Democratic party in that State. It says that the party by reason of its quarrels is in a condition of dissolution. After exhibiting the splendid advantages which it has possessed and thrown away, and arguing that the victory in New York against Gen. Grant was the beginning of a victory which might have swept the country in 1872, the *Herald* goes on to say.

> [illegible] selfish [illegible] and disappointed ambitions have left this triumphant Democracy no more power and influence than a pack of howling wolves, while at Albany all is chaos, anger, greed, strife, necessary legislation is arrested, and the Republicans hold the situation and remain its masters by cheering on the combatants—we look to Washington and see the President gaining ground every day. His administration gathers around it renewed popular confidence. The blunders of his civil career are like the blunders of his military career. As a General he had Belmont and Donelson, but he also had Vicksburg and Richmond. As a President he is rapidly making it as strong as Jackson. Instead of being controlled by the politicians, he is gradually controlling them. Representing the common sense, the prudence and the honesty of the people which grow around him every day, he holds in his hands the situation. The Democracy might have taken advantage of his early stumbling and inexperience; but when the nation looks upon the Democracy it sees nothing but an old time Tammany squabble wrangling about some city office. Let them wrangle. The hour was theirs, but it has [illegible]. They had victory in their hands, but they took to dissipation and bad temper, and it has fled. New York will continue in its fetters The great Norton-Genet burlesque combination will be the winter's amusement on Capitol Hill. In sixty days it will only be remembered as a vain and foolish failure. The country will continue to sustain the President, and his victory in 1872 will be as decisive as that of Sheridan in 1864, when he rode Early's victorious army into the [illegible].

Greenbacks Too Valuable

Legal tenders have gone up to such a figure that the patriotic Democracy are no longer willing to pay the national debt with them Such would seem to be the position of the Democratic paper at Corvallis That paper says its party don't want to repudiate, and intimates that it won't pay in greenbacks either, because greenbacks are too valuable to use for such a purpose Its proposition is thus stated.

> The Democracy demands justice in behalf of all governed. This can be meted out, though greenbacks were above par, by paying the bondholder in gold coin at a premium corresponding to that which it bore when the bonds were purchased In other words, if greenbacks were worth 50 cents on the dollar at the date of purchase of the bonds from the Government, then 50 cents on the dollar "goes" for their redemption

We shall soon see if the Corvallis organ has truly declare the policy of its party Of course the above proposition amounts to a demand for repudiation of one-third to one-half the debt, and if the Democratic Convention will put the proposition in its platform it will present a direct and intelligible issue on which the coming contest may be conducted. The great advance in greenbacks has brought the Democracy into a dilemma on financial questions As there is now so little to be made by paying the debt in greenbacks it is not worth while to attempt it, and there would seem to be nothing left for that party but to pronounce for direct repudiation, in part or in whole

Editorial Notes.

According to the New York *World* the Democratic party of that city is in a very bad way It says 'If no new charter is given us by the Legislature, then though our honest Democrats expel from power the Ring to-day we are left with no guarantee in the voting power of the people that their expellers will not become corrupt as the Ring, no guarantee that the Ring will not bribe back its strongholds. They can afford to, they can pay the price and keep a profit, for their's is a systematic, organized, and perfected extortion not possible to inexperienced thieves This is a charming exhibition of Democracy in New York coming, too from the most prominent Democratic journal in the country'

It has been noticed frequently that the *Herald*, in trying to make a point, has printed documents that were positively and emphatically *against* its position under the impression that they were *for* it and that they settled the case conclusively on its side We have now to record another instance of this sort That paper is printing the arguments of Democratic Senators against the Oregon grant with a design of showing that these Senators did not oppose it on the ground of general opposition to aid for railroads but simply because they did not want to grant land to corporations for the purpose! As it is well known that the Government can aid railroads only by grants of land the *Herald* is welcome to make all it can before the people of Oregon out of such quibbling and dodging as this By all means let it publish the remainder of the Democratic speeches in opposition to the Oregon grant The people will look right through the verbiage in which it has been attempted to conceal this opposition, and come at once to the core of the matter They know that all the Democratic Senators voted *against* the grant and care nothing for the sophistical reasons which they urged for doing so

POLITICAL NOTES

The Corvallis *Mercury* of this week is brimful of tribulation The establishment of a Republican paper at that place with S C Simpson, Esq as editor is what distresses the *Mercury* man His fertile imagination sees his hide on the fence already

It is no use Colonel Chapman, you can't be the candidate for Governor Mr Grover has the inside track in that race Therefore your letter in the *Herald* in which you promise to use all your influence to confer certain doubtful benefits on the west side road is pains taken for nothing The Colonel is old enough to have some experience as a politician, but all must live and learn

What is known as "Rockwell's Chinese Police Bill" has been pending for two or three months in the California Legislature The other day it was up, in some stage of the proceedings upon it, when a Democratic member very cavalierly pronounced it a mess of "bosh" and said that aside from "humbug" and "bosh," the bill contained nothing and would amount to nothing except to create a lot of offices As an anti Chinaman, Rockwell seems to be just about as boshy and as much a humbug and just about as successful, as our great anti Chinaman of Oregon.

Our Manufacturing Interests.

The following letter appears in the San Francisco *Bulletin* from the pen of a mechanic of that city It is written mainly with reference to the condition of industry in California, but it has application enough to Oregon to warrant us in reproducing it here

What can be done to further the manufacturing interests of California? Can a country be permanently prosperous while it neglects to foster home industry? Political economists say no, but the people of California by their acts say yes, for up to the present time enterprising citizens who have the hardihood to commence a new branch of industry have been looked upon as men to be admired more for their courage than or their judgment and prudence

Is not the true wealth of a country to be measured in proportion to its capacity to supply home wants and furnish a surplus for export?

The experience of the world says yes, but the practice of California says no As a people we have disregarded our natural advantages, and shown no disposition to encourage home industry Although our State abounds in raw materials suited to the wants of the manufacturer in almost every branch of industry—most of which can be afforded at figures below the ruling rates elsewhere still our manufacturing interests are languishing, and imports continue to pour in upon us at a cost far in excess of what the same articles might be produced at home if capital could be induced to foster home industry

When a country imports more than it exports, is it not simply a question of time when bankruptcy must follow?

Common sense says *yes*, for constant bleeding necessarily produces exhaustion, but our actions as a people show that we do not realize that such is to be our fate. True it is that for twenty years past such has been our policy, but Micawber like, we are waiting for something to turn up, that will change the current of events in our favor True it is that out of the thousand millions of gold which our mines yielded, we have exported about nine hundred and sixty millions, leaving us an insufficiency for a circulating medium True it is that we prefer to sustain in our midst a large number of importing merchants in preference to patronizing the struggling manufacturers who are trying to supplant said class and thereby retain amongst us twenty millions or more of gold annually True it is that the importing merchant can readily obtain banking accommodations at one per cent. per month interest, while his competitor, the home manufacturer, is compelled to pay from one and a quarter to two and a half per cent per month interest for money, if, indeed he is so fortunate as to find any one who will accommodate him at all.

Who will deny these are truths—literal truths which in any other country than ours would be downright madness

Now then for a remedy Can it be expected to flow from the wealthy importing merchants? No for then Othello's occupation would be gone

Can it be expected from the men who have got rich by usury—who care not for the general prosperity of the community so long as they can use their own capital successfully? Of course not, for when the currents of trade glide smoothly along, they are forced to follow in the wake of better men, and be content with moderate rates of interest

Can the policy of the loan societies which have accumulated over $25,000 000 be so changed as to give the required relief? I fear not for during the recent financial pressure they, without exception, increased their rates of interest, thereby adding to the stringency and consequent embarrassment of all persons engaged in industrial pursuits.

Up to the present time the loan societies have proved reservoirs for the industrial classes in small sums, to be loaned in large sums upon real estate securities only, thereby over stimulating speculations in city property, to the great injury of industrial pursuits into which said money ought naturally to have gone That is to say the mechanic or laborer who draws his wages regularly from his employer to deposit them in a loan society is not promoting his own prosperity (even though he may get one per cent per month interest) half so much as he would be if he placed his earnings in some reservoir from whence they would again flow back into the business from which they had been extracted, even though the rate of interest would be far less To place my proposition in different words, I will affirm it as a truth, that the true interest of the working men can best be subserved by establishing a bank of discount for their employees, fixing the rate of interest at a fair living price, or perhaps no higher than those which obtain in the Atlantic States This, to my mind is the only solution to the vexed problem, and I have been pleased to find that others, upon whose judgment I greatly rely fully agree with me So well pleased are they with the plan that a meeting has been proposed to be convened at the hall of the Mechanics Institute, to take the initiative for the establishment of a Bank of Industry—a bank which will be owned entirely by the sons of toil and for the accommodation of manufacturers only at a rate of interest not to exceed 7 per cent per annum With such a banking institution in this city controlling a capital of eight or ten millions of dollars (as it might readily do) who believes that importers would continue to supply us with three or four millions dollars' worth of furniture and five or six millions of leathern fabrics annually, to say nothing of numerous other articles which we still continue to import?

There is scarcely an article now imported into California which could not be manufactured here for less cost if capital were at command at 7 per cent per annum interest, and a cessation of the drain upon us for manufactured articles for two or three years would cause such an accumulation of capital in our midst that every banking institution here would be forced to lend at New York rates

LAST NIGHT'S DISPATCHES.

DISPATCHES TO THE OREGONIAN

EASTERN DATES TO MARCH 17.

Diplomatic Consular Bill—Congressional

WASHINGTON March 17 Mr Chandler from the Committee on Commerce reported a bill to amend the act to regulate the diplomatic and consular system of the United States and providing a salary schedule It abolishes certain consulates and changes the salary of a number of others It provides for a Consul General at London [illegible] and Havana with salaries of $5 000 and at Calcutta and Shanghai $5 000 at Montreal $4 000 at Berlin and Vienna $3 000 at Alexandria $3 500 It authorizes 19 consuls for Great Britain at [illegible] at salaries ranging from $6 000 at Liverpool down to $1 500 Among the consulates abolished, are those of Victoria V I Callao and Bombay Three consulates are authorized for Russia eight for France nine for Spain four for Portugal three for Belgium three for the Danish Dominions and ten for the North German Union The bill provides for the employment of clerks and interpreters for the various consulates and fixes the salaries of all consulates The consulate at Yeddo is stricken from the bill Those in Kanagawa Nagasaki and Hakodadi are transferred to Canton Foo Chow Amoor Yankow and Tientsing The consulate at Para, Brazil is stricken from the schedule

The Georgia bill was then taken up Howard favored Bingham's amendment, when the Senate went into executive session and afterwards adjourned

In the House Mr Sargent, from the Mining Committee, reported a bill amending the act passed July 26th 1866 granting right of way for ditches and canals over public lands by adding several new sections allowing placer claims to be entered and patents therefor granted at the rate of $250 per acre provided, no placer claims shall exceed 160 acres After an hour's discussion the bill passed

Mr Ferry, from the Mining Committee, made an adverse report on the bill relating to the Sutro Tunnel Mr Sargent made a minority report in favor of the measure as referred to the committee The morning hour expired and the matter went over until Tuesday

The House proceeded to consider the two reports received yesterday from the Military Committee, in the matter of Butler of Tennessee relative to the sale of cadetships, one being a resolution for the condemnation of Butler and the other for his expulsion Logan explained the majority report It having received a majority of votes, the Committee met and when the two reports were signed some members were absent hence each report was signed by four members He said the Committee had agreed to have the testimony read and leave the question, without argument to the decision of the House The testimony was read including the statement of Butler before the Committee His main defense is that he could not find a suitable boy in his own district to appoint, that he talked to Gen Schofield as to the legality of appointing young Tyler, Schofield told him that a residence would be acquired in a short time that such had been the practice of the Government that the appointment would be very gratifying to him, Schofield, and that he therefore made it He admitted the reception of money but claimed that he used it all for political purposes in Tennessee General Schofield testified before the Committee that he was not able to recall a conversation with Butler on the subject, but possibly had had one Certainly he had not recommended him to appoint Tyler's son and did not know till recently, that Ben Tyler had applied for or received an appointment, nor indeed that Tyler had a son The evidence being finished the previous question was ordered and a vote taken on the first resolution for expulsion resulting in yeas, 110, nays, 68—less than two thirds

At the evening session not over six members were present. Two or three speeches were made, when the House adjourned

Celebration of St Patrick's Day.

NEW YORK, March 17.—All the mails from the west were delayed by the storm yesterday

NEW YORK, March 17.—St Patrick's Day was celebrated more enthusiastically than ever before The procession numbered 50 000, and was witnessed by a vast concourse of people. There were celebrations also in Brooklyn, Boston, Baltimore and all the leading cities No disturbance occurred.

Affairs in Virginia.

RICHMOND, March 17.—For some time there has been a rumor that the present authorities in office by military appointment intended to resist any movement to dispossess them until their successors were elected by the people, holding that the enabling act declaring the offices vacant is unconstitutional. Last evening the City Council appointed by Gov. Walker under this act, elected a new Mayor and chose a new Chief and Captains of the Police To day when the new Mayor and Chief of Police applied for the possession of their respective offices, they were refused. The ex-Mayor has sworn in a large number of special police, and the new Mayor holds the City Hall and all other public buildings, except the station houses, which are in the possession of the old Mayor, who has appealed, through his counsel, ex Gov Wise, to Gov. Walker for assistance to maintain his authority. Gov Walker in reply to the application of Mayor Capoon, says, Mayor Emison is legally elected under the act of the Legislature, and he cannot recognize the authority of any one else as Mayor He censures Capoon's action, and advises him to obey the laws Capoon is still in the station house with about thirty men, but the besieging party have cut off the gas and supplies of food.

The 23d Infantry Band will perform the same programme at the plaza this afternoon [illegible] the occasion one week ago to-day.

CIRCUIT COURT—W. W UPTON, J. March 18 1870—Court met at 9:30 o'clock A. M. The following causes were disposed of: Lydia Barry vs Edward Barry Decree of divorce granted.

Sarah Moses vs A J Moses Decree of divorce denied

J Kafka vs D Simon. Motion for new trial [illegible] and judgment [illegible] for plaintiff on verdict of jury

John Torrence vs Wm Strong, Administrator Motion for new trial overruled and judgment rendered for plaintiff on verdict of jury for $3,092 50

Wm P Doland vs W J Bradbury. Jury empanneled and part of testimony [illegible] This is a suit growing out of an old partnership, and is instituted to recover $5 000 claimed by plaintiff

FIRE ALARM —The fire department [illegible] out in rather double quick time about nine o'clock last evening and surrounded the Oregonian office block, from Washington street on First, to Stark st. on Front, when it [illegible] appeared that the alarm was not well grounded, and the companies returned to their several engine houses We have endeavored to ascertain the [illegible] of the alarm, and conclude that it arose from the sight of steam and smoke issuing from the engine room of this office—which might have strongly resembled a conflagration as the edition of our WEEKLY OREGONIAN is now so extensive that it requires a large amount of steam to run it off

U S DISTRICT COURT—DEADY J —U. S. vs Ed Mathiot—Indictment for carrying on the business of a distiller without paying the special tax and without giving bond The day was [illegible] in the trial of this case After the charge of the Court the jury retired to consider of their verdict and after an absence of an hour and a half returned with a verdict of guilty as charged in the indictment. The defendant was ordered to appear for [illegible] in the morning The punishment for each offence is not more than two years nor less than six months imprisonment and a fine of not more than $5,000

MUSICAL ENTERTAINMENT.—It will be [illegible] Profs. Grob and Gans, together with the choir of the Catholic church and other ladies and gentlemen of this city have tendered their services in aid of the St Vincent de Paul Society, and will give a literary and musical entertainment at Philharmonic Hall on Easter Monday evening, April 18th 1870 The advance advertisement appears in another place to day

FOUND GUILTY The case of Edward Mathiot indicted for illicit distilling in Marion county was tried before Judge M P Deady in the U S District Court yesterday. [illegible] for the United States Logan for defendant. At seven o'clock P M the jury returned a verdict of guilty as charged in the indictment. But [illegible] the defendant to the mercy of the court.

[illegible] The opposition boat Carrie, and the O S N Co's intermediate boat Wenat, are each taking a respite at present Some [illegible] pending in the Circuit Court in this city required the attendance of an officer of one of the [illegible] boats [illegible] and the other followed suit and laid up also Both will be running again in a day or [illegible]

TELEGRAPH POLES EN ROUTE —The steamer [illegible] discharged a large number of fine cedar poles at the O S N Co's wharf on Thursday which are to be sent up the Columbia river this morning, for the extension of the telegraph line to Walla Walla These poles are obtained in Columbia county in the vicinity of Rainier

ROBIN RED BREAST There is a greater number of robins flying about in this city now than usual for spring The snow storm may have driven them to the city from the forests [illegible] as they are very tame indeed, and come almost within range of little hands stretched forth to feed them from house windows

GRAY'S HISTORY OF OREGON.—A book of 624 pages, neatly printed, entitled "A History of Oregon, drawn from personal observation and authentic information, by W. H. Gray, of Astoria," has been laid upon our table. Harris & Holman, agents, Portland, Oregon. The author in his introductory remarks that he has endeavored to narrate events in plain language, and in the order of occurrence as near as possible, without laying claim to literary merit or attractive style. He has classified the work into five distinct classes: 1st—The American History of the Hudson's Bay Company, and the Puget Sound Agricultural Company. 2d—The causes of failure of the Protestant Missions, the causes of Indian wars, etc. 3d—The adversity of early settlers is explained. 4th—History of the early settlement of the country, organization of the provisional government, etc. 5th—The mining and agricultural interests. He claims that this is a standard history of the country from the time included within the period from its discovery by Capt. Robert Gray, to the year 1849, as the contents are based on the author's personal knowledge and observation and participation in what is stated for one third of a century; and that the written and published statements of others have been so compared that conclusions are intended to be without a possibility of truthful contradiction. We leave the readers of the work to judge for themselves as to the merits or demerits of its contents.

THE ZAVISTOWSKI SISTERS.—San Francisco is now greatly convulsed by the piquant songs, bewildering dances, and broad burlesques and extravaganzas of the Zavistowski Sisters. They are the same that are advertised to shortly appear at the Oro Fino Theater. We understand that Mr. Miller will leave by the *Ajax* this evening, and by the return steamer will bring the troupe to Portland. The *Bulletin* gives the following notice of a recent performance: "The extravaganza of *Pygmalion* was produced to a large and [illegible] house last evening. It is a burlesque of the broad type, in which the gods, goddesses and [illegible] of the [illegible] world are made to do service in the cause of Momus. The Zavistowski Sisters [illegible] lively in a number of piquant songs and bewildering dances; Johnny Mack was very funny in "Cymhyssa," and the other parts were [illegible] The piece was newly brought out, was well received, and promises to have a [illegible]

[illegible] The California steamer mail will [illegible] P. M. to-day.

Co's wharf on Thursday [illegible] are to be sent up the Columbia river this [illegible] for the extension of the telegraph line [illegible] These poles are obtained in Columbia county, in the vicinity of Ranier.

[illegible] RED BREAST.—There is a greater number of robins flying about in this city now than usual for spring. The snow storm may have [illegible] to the city from the forests, perhaps; [illegible] are very tame indeed, and come almost within range of little hands stretched forth to feed them from house windows.

SINGING SCHOOL.—We are pleased to state that the singing class for children, at the Good Templar's Hall on Madison street, near First, is a success. The class meet at half past two o'clock every Saturday afternoon, and the efforts of the instructor, Mr. Buchanan, appear to have been well rewarded.

THE MONTICELLO MAIL.—It is said that there was some considerable competition in the bids for carrying the Monticello mail. It is not known who obtained the contract. Bids were probably [illegible] on the 10th. We hear of three various steamers, the owners of which are expecting the contract.

GONE IN.—One of the pioneer establishments of Portland, a barrel shop on North Front street, was too weak to stand up under the pressure of snow upon it, and so quietly laid down on Wednesday that ye local did not discover the item until yesterday. That old shop has "gone in."

GOING TO GRASS.—The steamer *Cascade* yesterday took 123 head of valley cattle up the Columbia river. They were destined for some portion of the rich grass lands of Eastern Oregon, and will perhaps some day return to this region fattened for the butcher's stall.

RELAPSE.—The friends of Mr. H. Cason, of East Portland, will regret to learn that he has met with a relapse, and that very little hope of his recovery was entertained yesterday.

[illegible] PLANK.—A large cargo of what appeared to be [illegible] plank was discharged yesterday from a Monticello mill barge, at the lower part of the O. S. N. Co.'s wharf.

A FALLEN CREATURE.—Officer Brannan had his hands full, about six o'clock last evening, to take to jail a drunken woman. Can it be possible that woman, in all her loveliness, can fall so low? Yes, because this sorry spectacle was witnessed by a hundred or more persons.

CHINESE THIEF. A Celestial undertook to play a little game on a Washington street glazier, near Third street, yesterday, but it so happened that the Melican man was posted, and made John "shell out" for an article that he undertook to steal.

REAL ESTATE SALE. Yesterday Messrs. Parrish & Atkinson, agents, disposed of a fractional part of the fractional block 121, between Front and First streets, adjacent to the Caruthers Addition, to L. A. Goddard, for the sum of $2,900.

FOURTH LECTURE. The fourth lecture in the course of six, for the benefit of the Young Men's Christian Association of Portland, will be given by Rev. P. S. Knight, of Salem, on Tuesday evening next, at Philharmonic Hall.

A SERMON TO THE "UNCHURCHED."—Rev. T. L. Eliot gives the sixth and last sermon of the series at Oro Fino Theater, to-morrow evening. His subject is announced, "Sinai and Calvary," a sermon for the "unchurched."

LAID UP.—The steamer *Mary Bell*, we learn, has been temporarily laid up at Monticello. Mr. R. C. Smith gives notice this morning to all persons having claims against the boat, or against him in connection with her.

TWO LENTEN SERMONS will be preached in Trinity Church to-morrow by the Rector. Morning sermon, "Man as he is Related to God and to Evil Spirits." Evening sermon, "The Love of Money."

FAT CATTLE.—The *Rescue* took twenty five head of splendid beef cattle to Monticello yesterday. They are for the Victoria market. We understand that they came from east of the Cascade mountains.

MOVED DOWN.—The furniture, and all necessary fixtures for a restaurant, lately in use at Salem, was discharged from the steamer *Senator* yesterday afternoon, and taken to East Portland.

HARMONY HALL.—Mrs. Rosa Martin will speak at the above hall to morrow evening at 7½ o'clock, upon "Spiritualism and Insanity." Free admission.

PUBLIC SCHOOLS OF THE CITY.—We are in receipt of reports from the High School of this city, J. W. Johnson, Principal; Miss M. A. PERSONAL AND POLITICAL.

M. F. Tupper suffered from a recent carriage accident, but his proverbial philosophy enabled him to endure his hurts uncomplainingly.

J. Ross Browne was candidate for Mayor of Oakland, California, a short time ago, on a Citizens' ticket, but was badly beaten by the regular Republican nominee.

Queen Victoria has announced to her Parliament that arrangements have been made for the scientific observation of the transit of Venus across the sun in 1874. Let the Queen's son confine his observation to that Venus, and he will do well.

Victor Hugo has been writing a short and tremendously eloquent letter to an Irishman about Ireland. Victor Hugo's sentiments are in this case, as in every other, honorable, manly and generous; but the language is a little, just a little like that of George Francis Train.

RAILROAD MATTERS are very likely to be lively this spring. The East Side Company will engage a large force of men to complete their road to Albany, and the West Side Company will, very probably, build a portion of their road in order to obtain a land grant to facilitate the building of their line to McMinnville. Kohn & Fleibel are keeping up with railroad times. Their stock of spring goods coming across the continent by rail will be the largest and finest stock of Clothing ever imported to this State. Their stock in store now is offered very low to make room for large arrivals. They are manufacturing the neatest Boys' Suits and always have on hand a large stock of the same which are offered at lowest figures.

Perfection in Sewing Machines attained in the GROVER & BAKER. 12,000 already sold on this coast, are each and all, practical advocates of the Elastic Stitch. WM. GRAVES & Co., Agents.

THE WEST.

Logan's rain guage shows that 21.5 inches of rain has fallen at Sacramento this season.

The Montana papers all give favorable reports relative to mining prospects. Water will be much more abundant than usual.

The *Reporter* says that only sixteen vessels arrived at Sacramento during the month of February, against 153 in the same month of last year.

The Deer Lodge, Montana, paper has this: "Lo! the poor Indian whose untutored mind, sees thrift in thievery, and goes it blind, is among us again. The Flatheads are returning to Bitter Root from their Missouri hunt, and are straggling down toward Hell Gate."

The number of bills which had been introduced in the California Legislature up to March 3d, was over one thousand and they were still coming in at a rate of twenty or thirty per day. Many of them are being ground through the mill without reading except by title.

The Elko *Independent* says a talking lady passed through Elko recently on the train west. She had neither ate nor slept since leaving Chicago having talked continuously 1,100 miles. She started a conversation with our friend Gardiner at the Cosmopolitan, and gave him such a turn that he has been silent for 24 hours.

There are one hundred and fifty war pensioners in California, the most of whom are widows of men who lost their lives in the late rebellion. They receive from $2 to $5 per month from the Government, being paid by a Pension Agent. The highest pension is paid to the widow of Col. Baker. The semi annual payments aggregate $25,000.

THE PEOPLE SAY

That PRATT'S ABOLITION OIL is the best remedy in the world for the complete and speedy cure of Rheumatism, Neuralgia, Lame Back, Gout, Chilblains, Sprains, Bruises, Stiff and Swollen Joints, Contracted Cords and Muscles, Pains in the Breast and Sides, Nervous Headache, Toothache, Earache, Sore Throat, Colic, Cramps, Cholera Morbus, Diarrhoea, and all internal and external aches and pains. Put up in two sizes—Price 50 cents and $1 00. Circulars with full directions around the bottles. For sale by all druggists.

THE BLOOD AND LIVER.

Life and health depend on their condition. PRATT'S NEW LIFE purifies the blood, heals old sores, expels from the system all scrofulous humors, cutaneous eruption and impure matter. It stimulates the Liver and Kidneys to healthy action, regulates the Bowels, cures Piles and Dyspepsia. Persons subject to Bilious attacks and those suffering from the effects of Fever and Ague, or any injudicious use of Quinine and Mercury will find PRATT'S NEW LIFE invaluable. Price $1 00.

The Infirmities of Age.

Decrepitude is the natural accompaniment of old age, but it may be ameliorated, and the period of entire helplessness long postponed by the judicious use of a healthful stimulant. Physicians, fully aware of this fact usually recommend moderate stimulation when the strength and vigor of maturity have been superseded by the feebleness and prostration which are the inevitable results of declining years. Port wine, gin, brandy and other liquors are often prescribed by medical men for aged persons, but the impulse which fermented and distilled liquors give to the circulation, and the energy they seem to impart is transitory, unless the alcoholic principle is modified and qualified by the presence of the medicinal tonics and invigorants. Of all the combinations of diffusive stimuli with the juices of herbs, roots and barks that have ever been administered to the aged and infirm, with the view of sustaining their waning strength, cheering their drooping spirits and relieving the aches and pains to which they are subjected, none has been found so efficacious, so agreeable and so permanent in its effects as Hostetter's Stomach Bitters. The difference between the effect of the Bitters and that of a mere excitant however pure, is the same as between the effect of a sudden and momentary application of excessive force to a given purpose, and the result of a steady, continuous application of exactly the requisite amount of force to the same end. The mere spirit of physical energy produced by a dram (and which is always succeeded by corresponding depression) never yet benefitted any man or woman suffering from physical decay. A cordial like Hostetter's Bitters, at once soothing and invigorating, is the remedial agent required.

CHARTRES COFFEE!

Manufactory Established in June, 1861.

STEAM POWER, NOS 625 AND 631 FRONT ST.

HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, GREEN COFFEE of the best qualities. CREAM OF TARTAR and SPICES of all sorts.

The undersigned, who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions, the sale of which daily increases. The acknowledged superiority of his merchandise, which commends here, and in the markets of the interior, a relatively higher price, excites the cupidity of [illegible], and every day he sees increasing the number of those who, by counterfeit or imitation of his mark, seek to deceive the public, palming upon them their inferior productions for the genuine G. VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial, but only adds to the favorable opinion of the consumers, the very flattering though unwilling testimony of the counterfeiters. Nevertheless, buyers should be forewarned, and put on their guard against this practice.

Retrenchment!

THE NUMBER OF GROCERY STORES IN PORTland is about sixty, with an average of three men to each, and about twenty of them run delivery wagons making a total of one hundred and eighty men and twenty teams constantly employed to wait upon eight thousand people. Estimate the labor per man at three dollars per day. In one year it would amount to $197 100, and the rents, keeping of horses, taxes, licenses, etc., at three dollars per day for each store and you have $65 700 more, making a total of $262 800 annually for expenses alone. This is why the grocerymen must make their twenty per cent or shut up shop.

Now we can supply the city with groceries with a force of twenty men and four delivery wagons, at an expense not exceeding $25,000, thereby saving $237 800 in expenses alone, which would enable us to sell goods at five per cent profit instead of twenty, and make money. $237,800 divided among 8,000 people would give $32 [illegible] to every man, woman and child, which they could actually save by contributing on [illegible]

The Missing Steamship "City of Boston"

It would appear that the report of the safe arrival of the steamship *City of Boston* at Queenstown was a hoax. The fate of the vessel is still in suspense. She left New York on the 25th January, and three days afterward she passed Halifax, since which time nothing has been heard from her. She was due in Liverpool on the 6th February, and is therefore forty days late. This vessel belongs to the Inman line, and is in every respect a first-class steamship. The New York *Times* of the 23d February has the following in regard to the missing vessel:

All the great transatlantic lines have their own track as distinctly charted down and separated as if they were rival railways. The Inman track, after leaving Cape Race, curves considerably toward the north, and runs in higher latitudes than any other of the main sea-tracks, except that of the Glasgow steamers. The *City of Boston*, if disabled, whether by accident to her machinery, or by a gale, would be in a part of the Atlantic whence escape must be very slow. At this season of the year the Gulf Stream, as is well known crosses the ocean at a lower parallel of latitude than in Summer; its northern edge being, according to Maury and others, five hundred miles south of the Inman track. The disabled ship, therefore, would probably be in a part of the sea where she would find but little of any current to drift her either towards the Irish coast or towards the Azores. The winds of the North Atlantic are sharply to the west, south of the Inman track, and if the *City of Boston* were on the Brest or Bremen line route, under ordinary circumstances, with neither steam, sail nor helm, she might, in a few weeks, float safely to the Azores. In consequence of the high latitude followed by her master, she is now probably out of the drift or eastward recurvation of the Gulf Stream washing these Western islands. The indications, both in Europe and here, are strongly in support of the belief that the usually westerly winds have been considerably modified during the past winter, and the steamship thus subjected to still greater delay.

The season is somewhat early for icebergs, but the abnormal tropical blasts we have had until lately, and which have been traced on the American coast beyond the Canadas, may have begun the work of dislodging the ice masses on the southern coast of Greenland. The incidents of the loss of the *San Francisco*, a few years ago, are perhaps fresh in the public mind. That vessel, after foundering on Christmas day, was so lost sight of by the ship *Three Bells*—which faithfully stood by her—that not a fragment of the wreck was visible to tell where she had drifted, until the 4th of January following, when her spars and rigging were found not over 500 miles from the scene of the disaster. At this rate of motion, in the very axis of the Gulf Stream where the *San Francisco* went down, supposing the now missing steamer to be helpless, she may be out forty days before she can reach the coast of Europe, and nearly as long in drifting to the Azores. If we remember rightly, it was the *Atlantic*, of the Collins line, that, a few years ago, on her trip to England, becoming disabled and uncontrollable by accident when a few days out from Newfoundland, was nearly sixty days in drifting to those islands. Fortunately the *City of Boston* has on board over eighty days' provisions. It is deemed not improbable that she is moving towards the Bay of Biscay, and it may not be too late for the Inman Company to telegraph for vessels to be dispatched in search of her there and elsewhere.

The First Panel of Lady Jurors

A Laramie City (Wyoming) date of the 7th inst. gives the following account of the first assembling of a jury composed in part of women:

The Judiciary of Wyoming sustains the right of women to serve as Grand Jurors. All ladies drawn as Grand Jurors were present at eleven A. M. to-day. A motion to quash the panel was not sustained. At 11.55 A. M. the first panel of lady Grand Jurors in the world was sworn. None asked to be excused. A lady bailiff was appointed for the Grand Jurors. Following is the address by Chief Justice Howe:

LADIES AND GENTLEMEN OF THE GRAND JURY: It is an innovation and a great novelty to see, as we do to-day, ladies summoned to serve as jurors. The extension of political rights and the franchise to women is a subject that is agitating the whole country. I have never taken an active part in these discussions, but have long seen that woman was a victim to the vices, crimes, and immoralities of man, with no power to protect and defend herself from these evils. I have long felt that such powers of protection should be conferred upon woman, and it has fallen to our lot here to act as pioneers in this movement, and to test the question. The eyes of the whole world are to-day fixed upon this jury of Albany county. There is not the slightest impropriety in any lady occupying this position, and I wish to assure you that the fullest protection of the court shall be accorded to you. It would be a most shameful scandal that in our temples of justice and in our courts of law anything should be permitted which the most sensitive lady may not with propriety hear and witness; and here let me say that it will be a sorry day for any man who shall so far forget the courtesy due and paid by every American gentleman to every American lady, as to even by a word or act endeavor to deter you from the exercise of those rights with which the law has invested you. I will conclude with the remark that this is a question for you to decide for yourselves; no man has any right to interfere. It seems to me to be eminently proper for women to sit upon grand juries, which will give them the best possible opportunities to aid in suppressing the dens of infamy which curse this county. I shall be glad of your assistance in the accomplishment of this object. I do not make this remark from any distrust of the gentlemen of Albany county. On the contrary, I am exceedingly well pleased and gratified with the indications of intelligence, love of law and good order, and the gentlemanly deportment which is so manifest. I will now listen to any reasons which any juror may make for being excused.

VARIETIES.

The New Orleans *Times* hints that on the arrival of our Minister at Pekin, he will be officially recognized as Hi-Low.

Josh Billings writes that "Philosophers" all agree that the milk is put into the koker nut, and then the hole is neatly plugged up, but who the feller is who duz it the philosophers are honest enough, for a wonder, to admit that they can't tell."

A newly married lady in Chicago complained to her Ma that on her reception-day her card-basket was overrun with circulars from lawyers, announcing terms for divorce. "So absurd, you know, Ma, before our honey moon is over." "True, dear," replied Ma (who had been twice divorced); but I'd put them in a safe place, you may find them very useful in a year or two."

Some intoxicated Yale students knocked at the door of a fellow-student who was not intoxicated. The latter at once "went for" his visitors, when the soberest of the party told the offender to ask the student's pardon. A little too far gone to comprehend the situation, he staggered up and said: "Mr. —, if I pounded on your door (hic) I thank you." The apology was considered sufficient.

Girls, they don't mean it; it's only a way these writers and talkers have. Anna Dickinson knows better, Susan B. Anthony don't believe a word of such nonsense. In their earnest attempts to set before women the necessity of a thorough business education, they occasionally spoil the view by a daub of the brush, which is unpleasant to the eye as it is untrue to nature—but love, to ten tenths of the women reformers, is the divinest part of life.

Monroe, Michigan, has had its case of breach of promise to marry, the fair plaintiff of fifty seven suing a youth of twenty, who promised to marry her if she would buy him a suit of clothes. The suit had the desired effect, and they were married by the Justice before whom the case was brought, the bride excusing her importunity by saying she wanted some one to saw her wood.

FINANCE AND COMMERCE.

PORTLAND, March 18, 1870.

[illegible] was received [illegible]

Legal Tenders steady at 80c.

Under the [illegible] rule of the produce market at San Francisco there is less than the usual anxiety among shippers to get their stocks off by steamer, [illegible] the *Ajax* after a delay of two or three days beyond her first advertised day, will sail to-morrow evening with less than her average cargo hence. There is nothing new to report in the markets in any direction.

The receipts of produce were light [illegible] freight [illegible] for many weeks [illegible] 120 sks. bacon, 15 sks. butter, 18 boxes eggs, [illegible] 220 sks. feed, 31 sks. flour, 610 [illegible] 5 bales.

As the season for [illegible] the spring trade is near at hand, [illegible] what will in all probability take place during the approaching season. [illegible] already worked some changes in the manner of doing business [illegible] value goods and [illegible] in certain directions which must yet become revolutions. The [illegible] it affords with the States [illegible] the people of the two [illegible] but it has inaugurated the work of assimilating [illegible] business and the prices of everything we buy or sell. The differences that now exist [illegible] and [illegible] the currencies of the East and the West must of necessity grow less as the means of intercommunication are multiplied or cheapened. The sooner they are entirely obliterated, the better for the coast. We should then find it to our advantage to produce most of the goods we now import from the East; and while thus opening new avenues of manufacture here infuse life into all branches of business which would lead to an increased local consumptive demand for farm products of all kinds and hence tend to the general prosperity of the State. So long as we could purchase manufactures and have them laid at our doors cheaper than we could make them, there was no encouragement to invest capital in such branches here. We pay the East millions of dollars annually for what can just as well be produced here as there, when the currency of both sections has an equal value. To accommodate ourselves to what is coming out of the transition states of trade and the currency, we need to have as soon as possible, cheaper transportation, cheaper rates for living, involving cheaper rents, and then cheaper labor can be obtained without distress to the laborer and labor, living and business will rapidly settle down upon a natural basis in which there will be regularity and a more equal distribution among all classes of the profits and the burdens of business.

Shipping Intelligence.

The Pacific Mail Company's steamer *Montana* sailed for Panama at noon to-day with 359 passengers, $809 000 in treasure, and merchandise to New York to the value of $78,000. The wool shipment amounted to 182,000 lbs. There was also shipped 173,000 lbs California hops in transit for England, valued at $20 700.

The Idaho and Montana Trade.

On the probabilities as to which way the trade of Idaho, Montana, and the interior generally will hereafter go, the Idaho *World* (Idaho City) of the 10th has the following:

"Mr. Lewis Eckhart, of the firm of Eckhart & Saunders, of this city, returned on Thursday last after an absence of about six weeks, from a business tour through the States east of the mountains. Since the completion of the Pacific Railroad, our merchants who have heretofore bought their heavy stocks of goods and supplies altogether in Portland and San Francisco, concluded to prospect the market in an easterly direction and see if they could not make better bargains than they could at the Bay. Several of them have been East, and among those who have returned are Mr. Eckhart and Mr. Kingsley and Mr. Vantine of this city. They have each purchased some goods in the Eastern markets, as we opine, more as an experiment or "feeler" than anything else, and to test the advantages of the markets relative East and West. Mr. Eckhart informs us that goods of all kinds, with the exception of China Goods and a few other articles can be bought in the Eastern market at a very much lower figure than they can be purchased at San Francisco, and at present prices and rates of freights Idaho merchants will do much better, and in fact will be compelled to make their purchases in the East. He visited Chicago and St. Louis particularly on business, and the merchants of those cities are determined to sell goods at such figures as to shut out San Francisco dealers from the Idaho, Utah and Montana trade. The railroad men east of the mountains very naturally partake of the same feeling and are determined to put the tariff of freights over the roads at such rates as will render it to the interest of our merchants to ship their goods from the Eastern market, where prices are on a greenback basis, instead of the Pacific coast, where a coin basis prevails.

Besides these advantages which we have named there is another inducement in the "Far West Fast Freight Line" a company organized in the East by gentlemen of wealth, who have undertaken the transportation of all kinds of freight from any of the principal cities in the Eastern, Middle and Western States, to all points in Montana, Utah and Idaho Territories at such figures as would astonish old dealers who purchase in Portland and San Francisco. The officers of the company are Mr. E. Creighton, President, Mr. Charles M. Maurice, General Manager and Mr. W. C. Graham, Secretary. Mr. Eckhart met them all except Mr. Creighton, in Chicago, as also in St. Louis, and informs us that they are courteous and affable gentlemen, thorough business men of the go-ahead sort, and know what they are about, and have capital to accomplish what they undertake. They will in a short time be prepared to contract for the transportation of freights from any of the principal cities to any point in Montana, Utah or Idaho and lay the goods down at the purchaser's door more expeditiously and at cheaper rates than the same can be done in any other manner or by any other company or corporation.

Mr. Eckhart and Mr. Vantine have made arrangements to ship goods through this company. Mr. Maurice and probably another member of the company intend visiting Idaho in the course of a few months for the purpose of making arrangements to establish an agency in our Territory.

Cure of Gravel of Five Years' Standing—Stone Passed and to be Seen

SAVANNAH, TENN., May 14, 1869.

Dr. H. T. HELMBOLD—Dear Sir: We introduced your Fluid Extract Buchu in this country about eight months ago, and are happy to state that it is meeting with universal favor. We wish to inform you of one instance (among many) where your "Buchu" has worked wonders. A man in our county named J. B. Estell had been suffering about five years with gravel. About six weeks ago he bought of us one bottle of your Buchu, and before he was through with one bottle he passed a gravel that weighs eight grains, which we now have on exhibition in our drug store. He says that he will never be without the "Buchu" in his house again. Your preparations are gaining favor every day.

Very respectfully yours, &c.,

Cure of Bladder and Kidney Affection of Long Standing—Stone Passed and to be Seen.

WESTPORT, CONN., Sept. 5, 1869.

H. T. HELMBOLD, Esq.—*Dear Sir*—I commenced taking your "Extract of Buchu" about two weeks since for an affection of the bladder and kidneys. I have suffered by spells very much for a few days past. But yesterday relief came through the effect of your "Buchu." A stone passed from my bladder about the size of a large pea, and I now feel perfectly well and entirely free from the pain that I have suffered with so bad. I attribute my cure to your medicine entirely and I would recommend all persons similarly affected to try it. I [illegible] its curative powers.

Yours truly,

THOMAS J. BENNETT.

Cure of Kidney and Bladder Affection of a Patient Seventy eight Years of Age.

THANKS TO MR. HELMBOLD.

GIRARD, PA., March 31, 1869.

Editor Cosmopolite: I desire, as an unsolicited tribute to the merits of Helmbold's Buchu, and for the benefit of those similarly afflicted as myself, to say that after consulting many eminent physicians and trying nearly all the best advertised remedies in the vain hope of finding relief from aggravated kidney and bladder diseases from which I have suffered excessively for many years, good fortune finally suggested to me Helmbold's Buchu, which I commenced using, with little faith and no apparent beneficial results, for about a month. At the expiration of that time, however, I thought I commenced to experience slight relief, which encouraged me to persevere in its use, and now, at the expiration of four months, although I am an infirm old man, nearly seventy-eight years of age, and consequently medicines cannot be expected to favorably affect me as they otherwise would, I have found such unspeakable relief and permanent benefit from Mr. Helmbold's valuable discovery that I feel I ought to publicly record the fact as an acknowledgment to him and a valuable suggestion to the public. Yours respectfully,

D. M. LAREN.

A Permanent Cure of Gravel of Twelve Years' Standing—Stone Passed to be Seen.

BURNSIDE, CONN., Dec. 15, 1869.

DR. HELMBOLD:

Dear Sir: It is with much pleasure that I write you upon facts respecting myself. I do not know hardly how to express myself. I have been for the past ten years the greatest sufferer man could be and live; but more sometimes than others. The complaint was the "Kidneys" and "Bladder." I have been sometimes from twelve to fourteen hours and wanted to make water every minute, but could not. Have consulted doctors both in Massachusetts and this State, and taken pills, I may say by the quart, also liquored medicines, but found no relief from any and got worse the last six months. I was so bad that I could scarcely get about. I could not rest night or day. It would soon have been "all up" with me if I had not seen your advertisement in the Berkshire *Courier*, headed "Kidneys." I read it through and thought I would try it. I purchased a bottle, but mind you, had not much faith in it. Why should I, when I had been trying so many things, and cost me so much? Well, I began taking it, and before I had taken the first bottle I felt bad, but I had finished it and got another. By the time I took half of the second I [illegible]. When I walked it seemed as if my right kidney was falling from its place, and I felt really bad. I felt so before I had finished the second that I had made up my mind it was no use trying any more—and all this time the "Buchu" was doing its work, but I did not know it. So I gave it up and went to Hartford on Saturday to one of the best doctors in the city. He said it was the neck of the bladder, and I should have to undergo an operation. He gave me medicine, and I went home quite downhearted. On Sunday I was not able to go to church. I had not taken any of his medicine, but on my return continued using the "Buchu," and in the afternoon I had a desire to make water, but could not. About an hour after I tried again, with the same result, but the next time I took the vessel it was the same as turning a faucet and stopping it off again. It was so for three times, and the third time there was something came through the passage and struck against the side of the vessel. I examined it, and it is the ugliest stone or gravel you ever saw, covered over with little pieces which collected together. It looks the color of a mud turtle and is as hard as a flint. So you see the Buchu was doing its work although I was feeling so badly. I procured another bottle thinking there might be some more behind, but since that has passed, which is eight weeks ago last Sunday, I have been as well as ever I was in my life. I have the stone securely wrapped, and those who have seen the stone in this place are surprised. I cannot tell you all, but this is a true story of my case, and you are welcome to make such use of my name as you think proper. I am pretty well known in Berkshire, also in Connecticut. The advertisement saved me. Why not publish it? The Springfield *Republican* is a widely read paper. If any one wishes to see this wonder they can do so. I could write all day, but think I have said enough this time. I remain your ever well wisher,

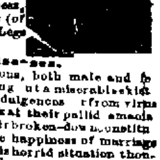
TO THE UNFORTUNATE.

NEW REMEDIES, NEW REMEDIES

Dr Gibbon's Dispensary,



623 KEARNEY STREET, NEAR COMMERCIAL, San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering at a miserable existence from the effects of secret indulgences or from virus absorbed into the system! Look at their pallid emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends attend to those who are suffering with any of these horrible life-destroying maladies, see that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private diseases his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of those charlatans.

Seminal Weakness.

Seminal Emissions, the consequence of self-abuse. This solitary vice or depraved sexual indulgence is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, fetid breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained should apply immediately either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

MARRIED MEN,

Or those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them, nor delay, obtain immediate relief.

DOCTOR GIBBON is responsible and will give to each patient a written instrument binding himself to effect a radical and permanent cure or make no charge.

CURED AT HOME.

Persons at a distance may be CURED AT HOME by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued and have medicines promptly forwarded free from damage and curiosity to any part of the country with full and plain directions for use. For Ten Dollars [illegible] stated list or through Wells Fargo & Co.

Caution to the Unfortunate

Beware of the San Francisco quacks and [illegible] slanderers who will tell you [illegible] certificates, duping you, upward [illegible] of the self-styled doctors whose names are to be found in the daily and weekly newspapers of San Francisco and other places are trademarks [illegible] [illegible] lazy to work at their trades. Some are insanity [illegible] makers, newspaper carriers, [illegible] saloon keepers, etc. Look over the San Francisco Directory and you will not find their Medical Institutes [illegible] but you will find [illegible] Look at the Directory for 1864 and 1865. The only way to avoid imposition [illegible] make enquiry. It will [illegible] thing and may save you many grief [illegible] advertising physicians. In eight cases out of ten [illegible] there is no safety in trusting any of them [illegible] know who and what they are. Dr. Gibbon [illegible] will exhibit [illegible] the certificates [illegible] patients [illegible] letters [illegible]. Dr. Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he proposes to cure.

Address DR. J. F. GIBBON, 623 Kearney street, corner Commercial (Private Entrance on Commercial), San Francisco. Post Office Box 252.

REMEMBER TO PUT BOX 252 ON THE LETTER.

Consultations FREE.
